

# MISSISSIPPI STATE UNIVERSITY™

## OP 01.05 Mission Statement Review

### PURPOSE

The purpose of this policy is to define the procedure and responsibilities for periodically reviewing and revising as needed the university's mission and vision statements.

### POLICY/PROCEDURE

Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) Comprehensive Standard 3.1.1 requires that an institution have a mission statement that is "current and comprehensive, accurately guides the institution's operations, is periodically reviewed and updated, is approved by the governing board, and is communicated to the institution's constituencies."

Institutions of Higher Learning (IHL) Policies and Bylaws Section 102.04 requires that: "Each institution shall develop a concise statement of its core mission for approval by the Board. The core mission statement shall be based upon and consistent with the statement of institutional purpose and mission required by the Southern Association of Colleges and Schools (SACS) and the Board and System mission statements. The core mission statement shall set forth clearly and concisely the major emphasis, scope, and character of the institution's instructional, research, and public service programs, and shall describe those characteristics and features that distinguish it from other institutions in the IHL system. Core mission statements shall be reviewed annually and may be modified with prior approval of the Board. The core mission statement of each institution shall be filed with the Commissioner."

Mississippi State University's mission statement as approved by the Board of Trustees shall be reviewed annually by the Executive Council, which will make a recommendation to the President that the statement remain unchanged pending the next scheduled review or that a broader review involving the campus community be undertaken if it appears advisable; however, a broad-based campus review of the mission statement shall be conducted upon the appointment of a new president of the university or whenever the president determines that such a broader review is needed. When a university-wide review of the mission statement is to be conducted, the president shall present the currently approved statement to the administration, faculty, staff, and students for review, along with any modifications he may suggest, and request comment and suggestions related to the existing statement and any proposed changes. The president may designate an ad hoc or standing committee of the university to assist in conducting the review of the existing mission statement, considering comments received from the campus community, and drafting a revised mission statement, if revision appears to be needed. The president, in consultation with representatives of the faculty, administration, staff, and students, may as a result of the review recommend to the Board of Trustees for approval a modified university mission statement.

### REVIEW

This policy and procedure will be reviewed every four years by the Office of Institutional Research and Effectiveness, with recommendations for revision presented to the President.
